

## **BUY Token BSC Bridge User Guide**

## **General Instructions**

• BUY token is an Algorand based asset (ASA). <u>https://algoexplorer.io/asset/137020565</u>

• You need to have an algorand wallet with BUY token opt-in completed. We support MyAlgoWallet. Please refer here for more info on opting-in: <u>https://link.medium.com/IZFXjo2zYhb</u>

 However, for interacting with established DeFi protocols, we have built a wrapped version, BUY, an BEP-20 token on the Binance Smart Chain (BSC).
 Contract address details: <u>https://bscscan.com/token/0x40225c6277b29bf9056b4acb7ee1512cbff11671</u>

• You need to have a BSC wallet with a BSC Mainnet Network selected and BUY (BEP-20) token already added. BSC Mainnet Network can be added using following link

https://medium.com/stakingbits/setting-up-metamask-for-binance-smart-chain-bsc-921d9a262 5fd.

We support Metamask and you can add token using "Import Token" enter the following contract address: 0x40225c6277b29bf9056b4acb7ee1512cbff11671

• You can use <a href="https://bnb.buying.com/">https://bnb.buying.com/</a> to convert between BUY(ASA) & BUY(BEP-20)

• BUY(ASA) to BUY(BEP-20) conversion transactions can take around 5-10 sec on Algorand blockchain. Kindly be patient for the transaction to complete.

• BUY(BEP-20) to BUY(ASA) conversion transactions can take around 15-20 sec on BSC(Binance Smart Chain). Kindly be patient for the transaction to complete.

• Once submitted, you can view your transactions at <u>https://bnb.buying.com/transactions.php</u> and see the current status as pending.

• After submission, your request will be verified and approved by buying.com administrators. Approvals generally take around 1-2 hours and can take up to 24h. Kindly be patient while we verify your transaction.

• Once approved, your transaction status will change and your tokens will be visible in your wallet.

• Let's deep dive into how it is done.
